

A Revolution in the Treatment of Rectal Diseases.

PILES

radically and permanently cured in a few weeks without the knife, cutting, ligature or caustics, and without pain or detention from business.

FISTULAS

completely cured without the use of an anæsthetic, confinement to bed or pain. Fissures, Ucers and all other rectal diseases treated with unfailing success by

Dr. Lighthill

Specialist in rectal diseases of every name or nature,

500 Broad St., Newark, N. J.

New York Office

at the

STURTEVANT HOUSE

(Cor. Broadway and 29th St.),

where Dr. Lighthill can be personally consulted every afternoon from 2 to 5 o'clock, Sundays excepted. Private entrance for patients on 29th St.

Newark office hours from 8 to 12 and from 7 to 8 evenings. Sundays from 9 to 1.

Read and investigate the following testimony from well-known patients. Your case, whatever it may be, can be unfailingly cured by this safe and painless method.

From Mr. I. F. Moritz, with Max Ernst, wholesale clothing house, 715, 717 and 719 Broadway, New York:

To whom it may concern:

It gives me great pleasure to recommend Dr. Lighthill to any one afflicted with rectal trouble. For three years or more I suffered with external piles, that often became swollen and inflamed and exceedingly painful, together with internal bleeding, that would protrude and bleed for at least half an hour after each movement of the bowels. After submitting to Dr. Lighthill's mild and painless treatment for three weeks I am thoroughly and completely cured and feel like a new man. I can cheerfully recommend Dr. Lighthill as an expert in this specialty.

I. F. MORITZ.

Residence, 61 East 73d St.

From Mr. George F. Riemann, Jr., Commission Merchant, No. 545 Broadway, New York.

Dr. E. B. Lighthill: Dear Sir: I am extremely thankful to you for the remarkable cure you have effected in my case. I was troubled with a very severe case of piles for the past eight years, which gave me a great deal of pain and distress, and very often bled profusely. I tried several physicians and many number of salves and suppositories to no benefit whatever, until I was recommended to you. Your treatment effected a complete cure without subjecting me to pain or interfering with my business, a fact which will no doubt be good news to those similarly afflicted. You can send any one to me for reference, as I cannot praise you too highly for your skill and success.

Yours truly, GEO. F. RIEMANN, JR.

From Mr. Thos. E. McKenna, Electrical Engineer, American Press Association, 45 Park Place, New York.

Dear Mr. Lighthill:

I take the greatest pleasure in expressing my gratitude to you for the cure you have effected in a case of piles from which I had suffered for some time. Your method of treatment is a perfect blessing. It was practically painless and did not in the least interfere with my work.

THOMAS E. MCKENNA.

From Mr. I. Colyer, Manufacturer of Hats, 64 Fulton St., New York.

I am a living witness of the wonderful skill of Dr. Lighthill in the treatment of rectal diseases. For years I had been afflicted with piles of a most obstinate character, for which I submitted to four operations under an anæsthetic without any permanent benefit. And of late a fistula developed itself which penetrated deeply into the tissues of the flesh in half a dozen different directions, but Dr. Lighthill's skill overcame the entire difficulty completely and effected a complete cure of both complaints without any pain or speaking of the administration of an anæsthetic. In fact, I was up and about during the entire course of treatment, and as my age is seventy-two, the cure effected under those circumstances is wonderful indeed, and is most gratefully acknowledged.

I. COLYER.

Residence, 111 North 16th St., West Orange, N. J.

From Mr. M. Stonehill, 115 East 82d St., New York.

I offer my grateful acknowledgments of the very remarkable cure of fistula which Dr. Lighthill effected in my case. The fistula was fully 5 inches long and 2 inches deep, and had numerous ramifications. The remarkable feature about the cure is the fact that I was not subjected to any anæsthetic, and that I was not confined to bed, that I suffered but very little pain, and that I was able to attend to my daily duties during the whole course of treatment. My fistula was complicated with protruding piles. Dr. Lighthill effected their complete cure with a few applications which I scarcely felt. I feel in better health and spirits than I have done for years, and cannot find words to express my gratitude to Dr. Lighthill for his wonderful treatment and success. Any one desirous of a personal interview is welcome to call.

M. STONEHILL.

From Mr. A. W. Rosinger, Counselor at Law, No. 741 Broad St., Newark, N. J.

Dear Sir: When I applied to you for treatment I was afflicted with a complication of rectal diseases. I was troubled with protruding piles for over twenty years, and later on a very large polypus developed itself, together with a fistula, which branched out in different directions. My life was made miserable by these ailments, and at times I was in great pain and distress. I was recommended to you by one of our most prominent citizens, whom you permanently cured of a similar difficulty, and I feel grateful for his recommendation, for, to my great delight, you effected a complete and perfect cure of all these ailments, and your treatment was of such a nature that I could attend to my practice right along with very little interruption. Since the cure was effected I feel like a new man, and, in fact, would not go back to my former condition for a single moment. I am more than satisfied with your treatment, and will recommend you to any and all similarly afflicted. Yours sincerely, A. W. ROSINGER.

Mr. David Young, of 227 Roseville Ave., Newark, N. J., President of the North Hudson County Railroad Company,

cheerfully testifies to the complete cure which Dr. Lighthill effected in the case of a deep-seated and very obstinate rectal fistula from which he had suffered for some time, and for which he had undergone several operations by very skillful physicians to no permanent benefit. Dr. Lighthill's treatment did not require the administration of any anæsthetic and did not interfere with his duties, and the cure seems to be permanent. I am more than satisfied with your treatment, and will recommend you to any and all similarly afflicted. Yours sincerely, A. W. ROSINGER.

From Mr. A. Phelps, Manufacturer of Buttons, Nos. 110 and 112 Pennington St., Newark, N. J.

Dr. E. B. Lighthill, 590 Broad St., Newark, N. J.: I feel it my duty to tell you that you have accomplished one of the most wonderful cures of protruding and ulcerated piles ever known to medical science. The cure I refer to is that of my wife, who has suffered for over twenty-five years with this terrible complaint. During that time she has suffered the most excruciating pain, being at times compelled to walk the floor for hours in a bent position on account of the agony she endured. She had been treated for years by some of our best doctors with only temporary relief. I had made up my mind that she was doomed to suffer for the balance of her days in unrelenting torture, as I had lost all faith in doctors and medical skill. Fortunately, my attention was called to the long and successful career of Dr. Lighthill, and I was well known Newark business men whom you had cured of difficulties of this kind. Knowing them to be men of honor and truth, I wrote to a number of them and received personal confirmation of the truth of their statements. I then placed my wife under your care, and after a few weeks' treatment, which was almost painless, and during which she was up and about, she is entirely cured, and I might say, has been given new life. I tender you this statement voluntarily, as I feel most grateful and gratified that words can express for what you have done for my wife. Her health is better now than it has been in twenty-six years. You may use this statement in every way to reach the eyes of the afflicted, and I will be pleased to verify the above to any one who will call at my office, Nos. 110 and 112 Pennington street, or at my residence, 41 Millford avenue.

A. PHELPS.

Hundreds of similar testimonials of cures in desperate cases from well-known patients in Newark, New York and vicinity can be seen in Dr. Lighthill's office.

Dr. Lighthill desires it to be distinctly understood that he has nothing to sell or send. A personal application is indispensable for treatment, advice or terms.

AMERICAN WONDER-WORKER GROWS KEET IN PARIS.

American Faith Gurist Makes a Sensation in Paris.

"Dr. Edwards" who says he is an American, is accumulating a fortune in Paris by laying on hands and effecting alleged wonderful cures. He is called "St. Paul," because he resembles the apostle. He is treating Lolo Fuller for blindness.

"Dr. Edwards" is called by His Patients "St. Paul." He Lays on Hands and Crows Flock to His Rooms.

Special Correspondence of the Journal.

Paris, April 4.—A great sensation has been caused in Paris by the wonderful cures alleged to be effected by a weird individual named Edwards, an American by birth, whose modus operandi is the imposition of hands.

I have just paid a visit to Edwards at his consulting rooms in the Rue Cadet, and found them crammed with people, many of whom were well-known ladies of society.

Dr. Edwards, with his long white hair tumbling in disorder over his back, his regular features and the Semitic incline of his nose, presents a striking appearance. In a long dressing gown, on which shines, at the waist, a silver cross, and with bare and sandalled feet, he has, his admirers think, so close a resemblance to St. Paul that this is the nickname they have given him, and which he has professionally adopted.

"I was raised in Rome," said the magician to me, "and am by religion a Catholic. My mother, who was an English woman, spent some days before my birth in great devotion before the statue of St. Paul, and christened me Paul. I have been that is why I resemble St. Paul, and that my body is marked with the stigmata of the cross. The toes and fingers correspond to those of Christ, though the nails were driven are missing in my feet and hands."

"I TOOK OUT KNOCK DROPS," SAID THE BARON.

Magistrate Olmsted Decided That Von Pyrell Had Been Punished Enough by the Disgrace.

Magistrate Olmsted has a special rate card of fines for noblemen who get drunk and fall into the hands of the police. "It must be an awful thing," he said yesterday in Yorkville Court, to Baron von Pyrell, of No. 115 West End Avenue, "for a genuine Baron to be in such a plight."

The Baron said it was. His head ached, he was restless and drowsy and repentant. Policeman Lahn, of the Fifth street police station, found him on Avenue B telling a lamp post that he was a Baron. He had no hat or coat on and spectators were laughing at him.

"They gave me some of those out-knock drops," he said. "He means knock-out drops," a policeman suggested. "No more wine and whiskey," he continued. "In Munich, where I come from, I used to drink beer. That's the best stuff, even for a Baron."

"You have been punished enough by the disgrace," the Court decided, and discharged him. "No more out-knock drops for me," the Baron said, decidedly.

FOOTPADS CHOKED HIM.

They Took Pearce's Watch, but Were Captured After a Chase and Gave It Up.

George M. Pearce, of New London, Conn., on Friday night fell a victim of two footpads on Second avenue, near Thirty-ninth street, who garroted and robbed him of his gold watch and chain and scrip.

"You have been punished enough by the disgrace," the Court decided, and discharged him. "No more out-knock drops for me," the Baron said, decidedly.

feet and hands." (In point of fact, Dr. Edwards is minus two fingers and two toes.) "My gift," he continued, "is from God. My motto is 'Transeo bene faciendo.' I first discovered the remarkable powers with which I am endowed when in Australia. I was sleeping in the same room with a young Government official who was dying of consumption. I got up and cured him instantly. I have never made such a marvelous cure since."

Among his prominent patients Dr. Edwards mentioned Miss Lolo Fuller, the music-hall dancer, who is suffering from ophthalmia caused by the glare of electric light, and the Cardinal Archbishop of Mexico, who he cured of acute rheumatism. Pneumonia is the disease which he combats with the greatest success.

I asked him what he thought of Lourdes. "As a means to influence the psychic state of sick persons," he replied somewhat vaguely, "all revelations of a religious nature have considerable importance. I believe that in man lies the power to cure every malady with which mankind is afflicted."

"Do you follow a particular diet?" I inquired. "I eat twice a day, methodically, and everything." Dr. Edwards takes no fees, but he accepts whatever grateful patients are willing to give him, and is accumulating a large fortune. The crowds who press into his operating rooms grow larger and larger every day.

Credent "St. Paul" has already been expelled from two sets of rooms for his reason. At certain hours of the day the queue of his customers extends to the corner of the street where he lives.

GREAT WEIGHT IS DUE TO A DISEASE.

Elephantiasis Transforms Miss Cortelyou from a Woman of 120 Pounds to One of 370.

The largest woman in Middlesex County, New Jersey, is Miss Julia Cortelyou, who lives with her sisters, Misses Louisa and Anne Cortelyou, near Ten Mile Run, and about ten miles from New Brunswick. She is seventy-three years old, and weighs 390 pounds.

Miss Cortelyou is a victim of elephantiasis, with which disease she has suffered for the past eight years. She measures seventy inches around the waist, and her arms are like tree trunks and twenty inches around the arm. Her diet consists chiefly of fat meats and vegetables. She is constantly attended by one of her sisters, who is visited by large numbers of curious persons.

Miss Cortelyou is the daughter of the late Abram Cortelyou. Prior to her affliction she weighed only 120 pounds.

28 CLERKS DISCHARGED.

Comptroller Cole has removed a large number of clerks in the Bureau of Awards of Taxes and Assessments, the Civil Service Commission having refused to certify the payrolls on the ground that the clerks who had been appointed temporarily had been retained too long.

William H. Carpenter, Thomas J. Hart, John A. Turner, India J. Smith, John E. Schuler and Benjamin C. Lockwood, of Queens, Joseph Davis, E. F. Lucy, Garret Moore, James A. Taylor, Thomas J. Calkin, William J. Smith, Louis J. Flander, Charles P. Felt, David C. Cullen, Joseph J. Carr and Joseph Lowinger, of Manhattan; James Tolly, Frank Brumann, M. J. McFarland, John C. Kinney, Jon Schults, Frank Davis, Michael S. Finley, Joseph Doyle, Peter C. Dill, James Graham and William C. Thomas, of Richmond.

The salary of each man was \$3 per day. The force was engaged in copying back records and also in preparing for the large tax sales this Spring. The Comptroller has called for an eligible list from which he may appoint permanent clerks.

A Remarkable Invention.

THE CHIOAN.

A genius of Cincinnati has patented and placed on the market a remarkable Bath Cabinet, whereby any one resting on a chair within, enjoys the famous Turkish, hot vapor or medicated bath, indoors, for three cents each, heretofore enjoyed only by the rich at public bathhouses, health resorts, hot springs and sanitariums. These baths are celebrated for their marvellous cleansing, purifying and invigorating effects upon the human system, and this invention brings within the reach of the poorest person in the country.

Clouds of hot vapor or medicated vapor surround the entire body, opening the million of sweat pores, causing profuse perspiration, drawing out of the

system all impure salts, acids and poisonous matter, which, if retained, overwork the heart, kidneys, lungs and skin, causing disease, fevers, dizziness and sluggishness.

Accompanying the improvement in health, feeling and complexion by the use of this Cabinet, and it seems to us that the long-sought-for natural method of curing and preventing disease without medicine has certainly been found.

The makers inform the writer that \$2,500 of these Chioan Folding Bath Cabinets have been sold since January 1, and showed letters from thousands of users who speak of the Cabinet as giving entire satisfaction.

Since this invention bathbaths have been discarded, for it gives a better bath for all cleansing purposes than soap and water, and as there are millions of homes without bathing facilities, it seems this would be a good article for readers to take the agency for.

Thousands of remarkable letters have been written the inventors, and to our knowledge persons who are full of drugs and nostrums, and have been given up to the least restored to perfect robust health, to the astonishment of their friends and physicians.

J. A. Eaton, M. D., of Topeka, Kan., gave up his practice, because, he said, he could do more good for humanity with this Cabinet than his medicines, and has already sold more than 900 of them. Congressman John J. Latta, Miss Senator Douglas, Rev. R. E. Fiske, Thos. C. Hart, Samuel Cooper, John T. Brown, editor of the Christian Herald, and a host of our most eminent people recommend it.

J. A. Hagan, Richfield, Mo., afflicted fifteen years with rheumatism in his worst form, was cured in six days. L. B. Westbrook, Newton, Iowa, afflicted forty-five years, was cured in three weeks of catarrh, arthritis, heart and kidney trouble. O. P. Freeman, Sparks, O., afflicted seventeen years, made to walk, was cured of kidney trouble, piles and rheumatism. A prominent citizen of Elwood, Ind., E. Veher, was cured of a serious case of obesity.

Indy in Maryland, Mo., Mrs. A. C. Cren was cured of woman's troubles, and recommends it to all suffering ladies.

We find this is a genuine Cabinet, with a door, handily and durably made of best materials, rubber lined, has a steel frame, and should certainly last a lifetime.

It is important to know that the makers guarantee results, and assert positively, as do thousands of users, that this Cabinet will clear the skin, purify and enrich the blood, cure nervousness, weakness, that tired feeling and the worst forms of rheumatism. (They offer \$500 reward for a case not relieved.) Cures, woman's troubles, malaria, ague, sleeplessness, neuralgia, headaches, piles, dropsy, liver, kidney and nervous troubles. It will make you strong, energetic, full of life and vigor with the coming of Spring and Summer, and avoid illness later.

To please the ladies, a face and head steaming attachment is furnished, it directed, which clears the skin, beautifies the complexion, removes pimples, blackheads, eruptions, and is a sure cure for skin diseases, catarrh and eczema.

All our readers should have one of these remarkable Cabinets. The price is wonderfully low. Cabinet complete, with face and head steaming attachment, only \$25. Head steaming attachment, and it is indeed difficult to imagine where one could invest that amount of money in any other direction that guarantees so much genuine health, strength and vigor.

Write to-day to the World Mfg. Co., 1838 World Building, Cincinnati, O., for full information: or better still, order a Cabinet. You will be disappointed. The makers guarantee their Cabinets, and will refund your money after 30 days if not just as represented. Capital \$100,000.00, and they will ship promptly upon receipt of remittance.

Don't fail to send for booklet, anyway. This Cabinet is a wonderful offer for agents, and the firm offers special inducements to both men and women upon request, and to our knowledge many are making from \$100 to \$1,000 per month in expenses. It is certainly an opportunity not to be neglected.

DR. KELLY'S SAFE, PERMANENT CURE FOR RUPTURE

IN SIX TO EIGHT WEEKS. CONSIDER THE FOLLOWING POINTS: No Cutting, no operation, no danger, no risk, no confinement, no uncertainty, no loss of time.

Why therefore temporize with a condition that limits your usefulness, interferes with your comfort, and threatens your life? Why depend for a day longer upon the very uncertain support of a truss or endure the humiliation and discomfort of wearing one? Remember, a truss is merely a support, like a crutch or a cane—it does not cure—it is simply a mechanical support. Remember also, that the tendency of every rupture is to become worse. The fact that you have become accustomed to your condition and consider it of little importance does not alter that fact. Perhaps your rupture comes down seldom, or is held up "most of the time" by truss, but such are the most dangerous of all ruptures, because strangulation is more imminent.

You have been told that your rupture can be cured by a truss. The man who told you that was either a maker or a dealer in trusses, which fact tinges his assurances with consciousness. You have been told that your rupture can be cured by a lotion or astringent wash. Does not your common sense and perhaps your experience teach you better? The very men who are the loudest in asserting that a medical man deposited directly into the opening will not cure it, are precisely the men who assure you that a lotion applied outside to the skin will cure it? You have been told, perhaps, that a cure is possible for a time, but the cure is not permanent, and relapses occur which require similar treatment. Medical trusses are a failure in every case of failure prove nothing either against my method or my medication. No case of my curing has relapsed.

If a method fails which resembles mine, but is not permanent, it is certainly not the method I use. I hold as my argument against my method, which has developed out of my own experience and is performed only by me, that it is the most successful of all methods.

How, therefore, can any patient be cured until he can undergo a series of tests here in the office to demonstrate that he is cured? The very men who are the loudest in asserting that a medical man deposited directly into the opening will not cure it, are precisely the men who assure you that a lotion applied outside to the skin will cure it? You have been told, perhaps, that a cure is possible for a time, but the cure is not permanent, and relapses occur which require similar treatment. Medical trusses are a failure in every case of failure prove nothing either against my method or my medication. No case of my curing has relapsed.

Treatments are given at my office only, once a week in each case. No patient is pronounced cured until he can undergo a series of tests here in the office to demonstrate that he is cured. The very men who are the loudest in asserting that a medical man deposited directly into the opening will not cure it, are precisely the men who assure you that a lotion applied outside to the skin will cure it? You have been told, perhaps, that a cure is possible for a time, but the cure is not permanent, and relapses occur which require similar treatment. Medical trusses are a failure in every case of failure prove nothing either against my method or my medication. No case of my curing has relapsed.

Saleswomen.

Standing, lifting, walking. Constantly alert to please. Backaches no excuse for incivility. Headaches and racking pains must be borne without complaint.

Successful saleswomen must be always smiling and pleasant!

The impossibility of being cheerful when suffering from some severe female trouble is so plain that the effort is itself a heroism.

Mrs. Pinkham has helped thousands of girls to retain their health under these trying circumstances and

her advice is offered free of charge to

all who write to her for counsel. Her address is Lynn, Mass.

Miss Nance Shobe, of Florence, Col., writes a letter to Mrs. Pinkham from which we quote:

"I had been in poor health for some time, my troubles having been brought on by standing, so my physician said, causing serious womb trouble. I had to give up my work. I was just a bundle of nerves and would have fainting spells at monthly periods. I doctored and took various medicines, but got no relief, and when I wrote to you I could not walk more than four blocks at a time. I followed your advice, taking Lydia E. Pinkham's Blood Purifier in connection with the Vegetable Compound and began to gain in strength from the first. I am getting to be a stranger to pain and I owe it all to your medicine. There is none equal to it, for I have tried many others before using yours. Words cannot be said too strong in praise of it."

The pale faces in our stores showing evidences of suffering, belong to women who need help. Lydia E. Pinkham's Vegetable Compound is the remedy of a woman who understands the ills of her sex. It is a practical safeguard of woman's health. Women in all walks of life rely upon it. Excessive, irregular or painful menstruation and all the ills that accompany these troubles succumb to the scientific influence of this really great medicine.

Miss Frame is Now Healthy and Strong.

"DEAR MRS. PINKHAM—I feel it my duty to write you in regard to what your medicine has done for me. I cannot praise it enough. Since my girlhood I had been troubled with

irregular and painful periods, and for nearly five years had suffered with falling of the womb, and whites. Also had ovarian trouble, the left ovary being so swollen and sore that I could not move without pain. Now, thanks to your wonderful medicine, that tired feeling has all gone, and I am now healthy and strong."

—Miss Polly Frame, Meade, Kan.

Mrs. Tolle Gained Forty-five Pounds.

"DEAR MRS. PINKHAM—I take pleasure in writing to you of the good your medicine has done me. I was very thin and my friends thought I was in consumption. Had continual headaches, backache and falling of the womb, and my eyes were affected. Every one noticed how poorly I looked, and I was advised to take Lydia E. Pinkham's Vegetable Compound. One bottle relieved me, and after taking eight bottles am now a healthy woman; have gained in weight from 95 pounds to 140 pounds, and everyone asks what makes me so stout."

—Mrs. A. Tolle, 1946 Hilton Street, Philadelphia, Pa.
